

# CAS in Clinical Research

Dear course participants,

Thank you for choosing to participate in the course titled «Writing a study protocol» from August 30<sup>th</sup> to September 1<sup>st</sup>. In order to prepare for the course, we ask you to complete the following tasks before the course start and send it to [casclinresearch@ispm.unibe.ch](mailto:casclinresearch@ispm.unibe.ch) by 26 August 2021:

1. Please prepare a summary of your planned study. The summary should be a maximum of one page and should include the following information:
  - a. Your name, department and institutional affiliation
  - b. Working title
  - c. Background and rationale
  - d. Study aim or objective(s)
  - e. Outcome(s)
  - f. Study design
  - g. Stage of protocol: e.g. funded and draft protocol written, writing the protocol as part of a funding proposal, hypothetical idea
  
2. Please check the protocol requirements (including template) for your study. Depending on your study, this may be mandated by the ethics committee, competent authority, funder or scientific journal.

We look forward to meeting you soon!
