

Introduction to Statistical Software R and Electronic Data Capture Software REDCap

General Information

DAY 1

Goal of the day

Build up a small study database with simple data entry forms in REDCap

Preparation for the day

Please watch the REDCap Training Videos and read through the GCP chapter listed below:

- Video [Brief Overview](#)
- Video [Detailed Overview](#)
- GCP chapter 4.9 «[Records and Reports](#)»

➔ You will receive REDCap login information approx. one week before the course will take place. Please make sure to have your login credentials available when attending the course.

➔ Installation of software R

Please bring your own laptop/notebook to the course.
